STATEMENT OF CANDIDATE FOR
TAHOE TRUCKEE UNIFIED SCHOOL DISTRICT
TRUSTEE AREA 2

Monty S. Folsom   **Age:** 59

Occupation: Retired Business Director

Education and Qualifications: My family and I have lived in Truckee since 1991 and we love this community. I have over 20 years experience managing financial affairs for California educational entities at the school district and county office of education levels. Before working in education, I worked ten years in private industry.

I have a thorough understanding of the requirements set upon school districts. If elected, I will dedicate myself to making our school district the best it can be, in terms of student achievement, purposeful involvement of parents in the education of their children, and the welfare of school district employees. I promise to dedicate my time to fulfilling the requirements of this position and pushing forward the special projects in desperate need of time and attention, including the immediate needs for an efficient and cost-effective use for the Sierra Mountain Middle School campus, student discipline and improving district staff morale.

By addressing these and other issues, I believe I can help to provide a positive environment for children and a supportive work environment for our staff. My commitment to the District is sincere, and I would appreciate your vote.
